Localism Task Force,

I am writing and providing the FCC (Federal Communication Commission) and to the Localism Task Force with this letter and compact disc package regarding the misuse of information that Clear Channel has reported on our family business. Causing great damage to our family venture, family reputation, and most of all embarrassment in our community and to our clientele. Using the people's means of receiving information and incorrectly perceiving that information. We have been wrongfully been reported to the Texas Health Department and we rightfully should have a retraction from our record being scarred in a pitiful way. Big business is gaining too much power and manipulating without any remorse of what they have done to the taxpayers of this country. Please regain the integrity of this country by have Clear Channel become responsible for their continuous wrongful actions locally and abroad.

In the compact disc you will find information on:

- 1) Pictures describing our Flea Market (Moursund Flea Market). There will also be pictures describing a close by Flea Market with a contact lens booth (Flea Mart, off of Hwy. 16, S.A., TX.), Pictures on the other Flea Market close by were not available but are the ones found in the Investigational report (Mission Flea Market).
- 2) This next frame is the actual 10p.m. reporting on WOAI channel 4, it repeated refers to the Moursund Flea Market and to specific negative word naming (black market, etc.), and false accusations.
- 3) The following forms are sent by The Texas Department of Health regarding a "Cease and Desist Order" in selling contact lenses.
- 4) A reply to a letter sent requesting more information June 12, 2003, regarding the "Cease and Desist Order", followed by the reply from the Texas Department of Health.
- 5) The next forms are the actual report by the Dawn Cole from WOAI channel 4 to the Texas Department of Health.
- 6) The next are published in the WOAI web site for over a month about the investigation pertaining our business and naming my dad and myself as owners involved.

No. of Copies rec'd
List ABCDE

0

7) There is a frame of Trouble Shooters receiving an award for the 3rd year in a row just 3 weeks after the false reporting they did to our business and family. How many similar reports were made to achieve such an award.

8) The next frames are attempts to get WOAI to reevaluate their information and get their facts straight before they continued in their formal accusations. Letters range from June 25, 2003 day of contact by Mandi Bishop, producer for WOAI channel 4 to June 27, 2003 by a vendor trying to get the facts straight.

I want to greatly thank the FCC and the Localism Task Force for giving me an opportunity to attempt to reintegrate our family's peace. Thank you
Sincerely,

Cuauhtemoc Valencia
